Villa details

The villas consist of a ground floor, an upper floor and a bright and habitable basement. The villas mainly consist of 3-5 bedrooms and 3-4 bathrooms, with the option to customize. The open and diaphanous spaces and large floor-to-ceiling windows of minimalist design allow the house to be flooded with light throughout the day, thus creating the feeling that nature enters your home as being part of it. The use of natural materials and colors or the natural light that prevails in each of the rooms have created a different and warm modern villa.
